Structure and delivery

**Year One:** commences with a full week in September and thereafter one day per week for the remainder of the academic year.

**Year Two:** attendance at workshops throughout the academic year

A blended learning approach is utilised in the delivery of theoretical content which includes lectures, group discussions and self-directed learning. The assessment process is a combination of written and practical assignments. This course includes clinical and practice based learning and assessment and students may be required to attend additional sessions at associated service provider sites as well as at the student’s practice base during Year One of the course.
