Course Overview
Students will undertake advanced study in research methods, the theoretical and practical aspects of management, clinical practice and leadership and child health perspectives as well as contemporary issues in child health and wellbeing.

Structure and delivery
Year One: commences with a full week in September and thereafter one day per week for the remainder of the academic year.
Year Two: attendance at workshops throughout the academic year

A blended learning approach is utilised in the delivery of theoretical content which includes lectures, group discussions and self-directed learning. The assessment process is a combination of written and practical assignments.
