COURSE OVERVIEW

This course will enable students to develop the knowledge, skills and attitudes necessary to care for patients to the highest professional standards across the healthcare continuum. The modules offered are grounded in a body of evidence-based knowledge that promotes excellence in nursing practice.
Structure and delivery

**Year One:** commences with a full week in September and thereafter one or two days per week for the remainder of the academic year (depending on whether the course is being undertaken full-time or part-time)

**Year Two:** attendance at workshops throughout the academic year

A blended learning approach is utilised in the delivery of theoretical content which includes lectures, group discussions and self-directed learning. The assessment process is a combination of written and practical assignments.

**Modules (ECTS are listed in brackets)**

**Postgraduate Diploma in Nursing**
