Job Description

Comp ID: 037142

Job Title: Professor in Midwifery

School/Department: School of Nursing and Midwifery

Job Category and Level: Academic; Professor in

The Purpose of the Role

The Professor in Midwifery will provide strategic and operational input to expanding and midwifery and developing maternal health research and practice at Trinity College Dublin. Maternal Health is one of the key pillars of research and research strengths within the School of Nursing and Midwifery and the post will build on the current research activity and research priorities of the School. The position is also being established in the context of supporting the Trinity Centre for Maternity Care Research within the School of Nursing and Midwifery.

Context

The School has recently embarked on its Strategic Plan 2023-2030: Transforming healthcare and creating a better future for all, through which we provide world-leading educational programmes to prepare nursing, midwifery and other health professionals to meet the needs and inform the future development of national and international healthcare. This programmes are aligned to our cutting-edge collaborate research across our research centres and research themes.

The School is seeking to appoint a motivated and talented individual who will become an integral part of the midwifery team, and who will enable the sustainability of midwifery and maternal health research innovation in the future. The appointee will be expected to provide leadership in policy development at national and regional levels. The person appointed will be required to build on and lead the School’s existing research and teaching profile in the area of midwifery and maternal health and advance research priorities by developing and disseminating evidence-based care within the local, national and international contexts.
Main Responsibilities

Teaching

• Innovate in teaching and assessment and give instruction in maternal health and midwifery programmes.

• Contribute to teaching on maternal health, midwifery and related topics, under the direction of the Head of School of Nursing and Midwifery, to those undertaking additional training and continuing professional development.

• Examine candidates in their subject in line with the assessment principles of the Trinity Education Project (TEP).

• Participate in the administrative organisation and audit of such teaching, and examinations, as directed by the Head of the School of Nursing and Midwifery.

• Contribute towards the future development of undergraduate and postgraduate programmes.

• Supervise students undertaking taught maternal health and midwifery programmes and assist in the co-ordination and delivery of appropriate research elements in postgraduate programmes with Trinity.

• Support and strengthen capacity of maternal health and midwifery to undertake research through supervision of maternal health and midwifery students undertaking PhDs.

Research

• Contribute to the overall research profile of maternal health and midwifery within the School of Nursing and Midwifery.

• Contribute to the activities of the Trinity Centre for Maternity Care Research.

• Expectations in terms of numbers of publications in high value journals and level of funded research will be in line with the Professor grade.

• Collaborating with colleagues and where possible mentoring junior researchers and/or post-docs whilst developing research in maternal health and midwifery.

• Advance the research of the midwifery profession as appropriate for the realisation of their research agenda.
• Contribute to and guide maternal health and midwifery research within the framework of the current clinical service structures while being cognisant of other national and international developments in maternal health and midwifery practice and research.

• Secure funding and advise and assist academic staff at the School of Nursing and Midwifery to secure external funding to conduct research and to support maternal health and midwifery research programmes.

• Develop innovative research proposals with clinical colleagues with a view to leading funding bids at national and international levels.

• Forge operational and strategic links with current research teams and resources.

Contribution to Discipline, School and College

• Represent the midwifery profession on appropriate national and international advisory boards and professional bodies.

• Lead on, or contribute to, policy submission and agenda setting for key professional and maternal health/midwifery organisations/groups.

• Participate in administrative roles within the School of Nursing and Midwifery in line with School policies.

• Represent the profession and the School of Nursing and Midwifery on College committees as appropriate.

• Contribute to the wider College development and sustainability as appropriate.

• Assume a leadership role and managerial role within the profession of midwifery and the School of Nursing and Midwifery, appropriate to the level of appointment

Person Requirements

The role-holder will require the following knowledge, skills and attributes for successful performance in the role.

Qualifications

• Excellent academic record and will have completed a Ph.D. in maternal health / midwifery or relevant maternal health-related area (Essential).
• Experience in working in maternal health practice (Essential).

• Be registered with the Nursing and Midwifery Board of Ireland (NMBI) as a Registered Midwife (RM) or, for overseas candidates, be Registered/Certified as a Midwife. (Essential)

• International reputation as an authority in midwifery and maternal health with a supporting research profile including competitive research grants, publications and evidence of recognition within the broader research community.

**Knowledge and Experience**

The successful candidate will be expected to clearly demonstrate the following:

**Teaching**

• Contribution to both face to face and virtual teaching at undergraduate and postgraduate levels within the School.

• Evidence of a commitment to educational excellence in midwifery.

• Ability and willingness to teach outside of immediate area of specialisation.

**Research and Scholarship**

• An established record of conducting research pertinent to maternal health / midwifery.

• A record of funded research and an evidence of a research plan to building to a trajectory of research excellence and success.

**Administration, Contribution to University and Engagement with Discipline and Society**

• Ability to undertake administrative responsibilities as required by the Profession, School and University.

• Ability to represent the School and University on appropriate national and international advisory boards and professional bodies.

• Organisational skills necessary to the performance of teaching, research and administration requirements of the role of Professor.

**Skills**

• Well-developed written and verbal communication skills and interpersonal skills.

• Planning and organisational skills, particularly coordinating processes and systems.
• Ability to represent the School and College on appropriate national and international advisory boards and professional bodies.

**Personal attributes**
• Capability and confidence to take ownership of problems and seek long term solutions.
• Career driven, enthusiastic and motivated.
• Commitment to own professional development
