Course Outline

The M.Sc. / PGrad. Dip. / PGrad. Cert. in Specialist Nursing (Intensive Care Unit [ICU]) is designed to enable registered nurses to enhance their knowledge, experience and clinical skills within their chosen speciality. The course will endeavour to provide the student with the appropriate level of knowledge, clinical expertise and technical skills necessary to function as a competent, effective and caring practitioner, and is designed to prepare the nurse to function as a specialist nurse. There is a strong commitment to research based practice, and a focus on the development and integration of theoretical knowledge and clinical experience. This will meet the specific educational needs of students and will promote evidence based nursing care.

Structure and Delivery

Year One: commences with a full week in September and thereafter one day per week for the remainder of the academic year.

Year Two: attendance at workshops throughout the academic year. The course is offered on a two year part-time basis.

This course includes clinical and practice based teaching, learning and assessment and students may be required to attend additional sessions at associated service provider sites as well as at the student's practice base during year one of the course.

Modules (ECTS are listed in brackets)

Year 1 Modules

Specialist

NU7541 Nursing Care & Management of the Critically Ill Patient with Multi-System Dysfunction

NU7542 Principles of Intensive Care Nursing
