Course Outline

Professional nursing in the perioperative department requires specialist knowledge, along with clinical and technical expertise and interpersonal skills, in order to provide comprehensive, physical, emotional and spiritual support to the patient during surgical intervention. This innovative course is the first in Ireland to offer peri-operative nurses the opportunity to choose strands relating to their area of clinical practice.

Structure and Delivery

Year One: commences with a full week in September and thereafter one day per week for the remainder of the academic year.

Year Two: attendance at workshops throughout the academic year. The course is offered on a two year part-time basis.

Clinical Placements and Student Support

Each student will receive a planned clinical placement timetable for the duration of the course. During the course educational and clinical facilitators will offer personal and professional support to each student.

This course includes clinical and practice based teaching, learning and assessment and students may be required to attend additional sessions at associated service provider sites as well as at the student's practice base during year one of the course.

Modules

Year 1 Modules

Specialist

NU7551 Principles of Perioperative Nursing

NU7552 Nursing Management of the Perioperative Patient

NU7553 Perioperative Department Management

NU7554 Supervised Practice Placement (Peri-op)

Core
