Course Outline

The M. Sc. / P.Grad. Dip./ P.Grad. Cert. in Specialist Nursing (Renal) is designed to enable registered nurses to increase their knowledge, experience and clinical skills within this chosen speciality. This course includes clinical and practice based teaching, learning and assessment and students may be required to attend additional sessions at associated service provider sites as well as at the student’s practice base during year one of the course. This course is designed to prepare the renal nurse to function as a specialist nurse. It is both dynamic and challenging and will enable the student upon completion to function as a competent, effective and caring practitioner. The use of evidence-based practice will be utilised throughout this course with the focus on the development and integration of theoretical knowledge and clinical experience. Applicants may apply for the Postgraduate Certificate in Nursing Specialist – Renal which includes the three specialist modules. Students who successfully complete the P.Grad.Cert. may progress to the M.Sc./P.Grad.Dip in Specialist Nursing (Renal).

Structure and Delivery

The course is offered on a two year part-time basis.

Year One: commences with a full week in September and thereafter one day per week for the remainder of the academic year.

Year Two: attendance at workshops throughout the academic year.
