Course Outline
The M.Sc./PGrad.Dip./PGrad.Cert. in Specialist Nursing (Intensive Care) is designed to enable registered nurses to enhance their knowledge, experience and clinical skills within their chosen speciality. This course includes clinical and practice based teaching, learning and assessment and students may be required to attend additional sessions at associated service provider sites as well as at the student’s practice base during year one of the course. The course will endeavour to provide the student with the appropriate level of knowledge, clinical expertise and technical skills necessary to function as a competent, effective and caring practitioner, and is designed to prepare the nurse to function as a specialist nurse. There is a strong commitment to research based practice, and a focus on the development and integration of theoretical knowledge and clinical experience. This will meet the specific educational needs of students and will promote evidence based nursing care.

Structure and Delivery
The course is offered on a two year part-time basis.

Year One
Commences in September with one full theory week and thereafter one day per week for the remainder of the academic year.

Year Two
Attendance at workshops throughout the academic year.

Year 1
